**Additional Information / Prior Funding History:**

None.

**Project Description/Justification:**

The existing 25 year old 1-bay building was built in 1979 and has a dirt floor. It is unheated and uninsulated. There are gaping holes in the building showing daylight. This building needs to be demolished and replaced. Additional equipment needed to maintain the airport requires more space for storage. Currently there is a grader with attachments. A new loader with attachments is programmed in the Airport Improvement Program to be obtained after the construction of this building.
