

**Cordova: Runway Safety Area Expansion****FY2007 Request: \$3,000,000****Reference No: 41719****AP/AL:** Allocation**Project Type:** Construction**Category:** Transportation**Location:** Cordova**Contact:** John Torgerson**House District:** Cordova/Southeast Islands (HD**Contact Phone:** (907)269-0727

5)

**Estimated Project Dates:** 07/01/2006 - 06/30/2011**Appropriation:** Airport Improvement Program**Brief Summary and Statement of Need:**

Raise the safety area grade by two feet, pave, and install the engineered material arresting system (EMAS) at the Cordova Airport. This is an Federal Aviation Administration (FAA) pilot project to obtain 100% runway safety area. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

One-Time Startup:	0	0
<b>Totals:</b>	<b>0</b>	<b>0</b>

**Additional Information / Prior Funding History:**

None.

**Project Description/Justification:**

The Cordova Airport has deficient runway safety areas. It has been identified as a good candidate for a test project using an engineered materials arresting system (EMAS) in lieu of widening and lengthening its runway safety areas. The EMAS blocks, equipment to remove snow from the EMAS, and a five-year extended warranty for repairs to the EMAS will be purchased under an FAA Grant received in FFY2005.
