Dear Governor Palin:

I am writing in support of capital projects included in SB 221 for my local co-op, Copper Valley Electric Association. I recently attended the co-op's annual membership meeting and was pleased to hear of progress being made on improving electric system reliability and especially on efforts to construct more hydroelectric generating capacity at Allison Lake.

The money in the capital budget will be put to good use. I urge you to approve funding for these projects so my high rates will not have to be increased to pay for them. Thank you, Governor.

Sincerely,
