Project Description/Justification:

ASBDC produces significant measured outcomes in the creation of new jobs; the retention of existing jobs; accessing capital for small businesses; increasing research and development grants for small businesses; returning out of state purchases back to Alaskan vendors; and creating new manufacturing opportunities in the production of parts for aging weapons systems. ASBDC has received funding through the capital budget since it was transferred to UA's Budget from the Department of Commerce in the early 1990's.
