Statewide Contaminated Sites Cleanup | **FY2010 Request: $5,000,000** | **Reference No: 33826**

AP/AL: Appropriation
Project Type: Life / Health / Safety
Category: Health/Human Services
Location: Statewide
Contact: Larry Dietrick
House District: Statewide (HD 1-40)
Contact Phone: (907)465-5250
Estimated Project Dates: 07/01/2009 - 06/30/2014

Brief Summary and Statement of Need:
This CIP funds assessment and cleanup of the highest priority state-owned sites and sites where the responsible party is unknown or has refused to take appropriate action. Work includes site assessment, cleanup, and/or monitoring. The containment and cleanup of pollution in the environment contributes to the Department's End Result A - The Environment is Protected.

Funding:	FY2010	FY2011	FY2012	FY2013	FY2014	FY2015	Total
Oil/Haz Fd	$5,000,000	$3,000,000	$3,000,000	$3,000,000	$3,000,000	$3,000,000	$20,000,000
Total:	$5,000,000	$3,000,000	$3,000,000	$3,000,000	$3,000,000	$3,000,000	$20,000,000

☐ State Match Required ☐ One-Time Project ☐ Phased - new ☐ Phased - underway ☑ On-Going
0% = Minimum State Match % Required ☐ Amendment ☐ Mental Health Bill

Additional Information / Prior Funding History:
Statewide Contaminated Cleanup has received prior appropriations of $3,789.0 in FY1999; $5,000.0 in FY2000; $5,000.0 in FY2001; $5,000.0 in FY2002; $4,200.0 in FY2003; $5,000.0 in FY2004; and $3,000.0 in FY2005.

Project Description/Justification:
This project is intended to fund the investigation and cleanup of oil and hazardous substance spills that threaten human health or the environment as provided under AS 46.08.040(2)(A). Funding reduces human and environmental risk at contaminated sites where an uncontrolled hazardous substance release threatens or pollutes drinking water supplies, public health, fish, wildlife and subsistence resources, or the beneficial use and reuse of state property. Two categories of sites are included in this request: (1) state-owned sites or sites for which the state is the responsible party; and (2) sites where the responsible party is unwilling or unable to take appropriate action ("orphan" sites). Contaminated sites are selected based on: (1) an analysis of how people can be exposed to contaminants in the environment; and (2) an assessment of relative risk and economic factors. The request for $5,000.0 in FY10 will cover the anticipated cost of assessment, cleanup, and monitoring at 48 contaminated sites. The estimated ongoing costs for assessment, cleanup and monitoring in future years (FY11 through FY14) at state-owned and state lead sites is estimated based on historical costs for cleanup of contaminated sites. This request is based on current staff levels and does not require new positions. Cost estimates are based on current knowledge for contaminated sites. A portion of the request is reserved for unplanned cleanups or unanticipated costs because of the

unknowns and uncertainties associated with estimates for cleanup where the extent of contamination is not known.
