Total	\$1,000,000		\$4,000,000			

Detailed Project Description and Justification:

Improvements are expected to primarily include traffic signals, channelization, turn lanes, traffic calming, school flashing light upgrades, and pedestrian separation where needed. If state grant funding is provided, construction is expected to start in 2010. Intersections being considered for funding include: Golden View Dr at Rabbit Creek Rd, Golden View Dr at Bluebell Dr, Klatt Rd at C St, Lake Otis Pkwy at 20th Ave, Lake Otis Pkwy at Abbott Loop Elementary, and Mountain View Dr/McCarrey St. Safety and capacity improvements along other arterials and collectors are also under consideration. As traffic increases and traffic patterns change, safety concerns at different intersections and streets also change. This program funds improvements that address evolving safety and capacity concerns. In four of the previous five years, this program has provided funding for more than 15 projects. A more detailed list of 2010 projects is under development.

Project Timeline:

Construction is expected to start in 2010 on many projects and most expenditures are expected in 2010 and 2011.
