Purchase and installation for wireless internet access throughout the school.

Benefits if Project is Funded

We are in a web 2.0 world and student software is increasingly web-based. This technology will give students increasing access to web-based ASD curriculum including our reading and math programs. It will assist staff and students to meet ASD's Six-Year Technology Plan for hands-on learning. Visiting staff and instructors have come to expect wireless capabilities in our building and we need to be able to provide the technology.

Impacts if Project is not Funded

of Students impacted by project 423

Project Start Year 2011

Project Finish Year 2011
