Primary House District: 20 **Secondary House District(s):**

Primary Senate District: J **Secondary Senate District(s):**

Project Description

Principal's Priority 1

Upgrade technology and equipment throughout the school in order to continue to provide an exciting learning and teaching environment for students and staff. With funds granted to our school last year we were able to update our computer lab and increase student achievement. We are currently implementing technology-based interventions throughout our entire school. Our programs and interventions are motivating engaging all students from struggling to gifted. We need to move upgraded technology into the classroom for everyday use. We are respectfully requesting mounted projection interactive white boards for 22 classrooms complete with a speaker system and phonetic ear system. In addition, adding one computer per classroom to work with the Bluetooth technology for the interactive white board.

Benefits if Project is Funded

Students will benefit from more time on computer assisted, individualized, interactive instructional programs. The computers and interactive white boards will be utilized to access interactive tutorial and assessment education.

Impacts if Project is not Funded

If not completed, students will be limited to the amount of computer-assisted instruction and learning due to our limited hardware.

of Students impacted by project 375

Project Start Year 2011

Project Finish Year 2012

Project has matching funds are available **No**

Project has prior state funding available **No**

Project has federal funding available **No**

Project has has a public review process **Yes** **Capital Request Advisory Committee**
