Local Funds	\$16,000	FY 2010				
Other Funds	\$25,000	FY 2010				
Total	\$41,000					

Detailed Project Description and Justification:

The current roads in Levelock are sand and there is no road bed. In the spring and fall the roads turn to mud and are nearly impassable. The landfill is inaccessible about 3 months out of the year. The village is planning to use this equipment to begin road rehabilitation. A major road from airport, through the village and to the beach is scheduled to be renovated through the federal Indian Reservation Roads Program. The village has \$750k for construction via this program and will begin the work in 2011. In addition to building the road, the equipment will be used for maintenance. The excavator would also be useful for sewer maintenance.

Project Timeline:

From now to when funds are available, village staff will be researching equipment and transportation options. Once funds are released, vehicles would be purchased and transported to Levelock.
