Kokhanok - Design & Feasibility Study of a Multi-purpose Building

State Funding Requested: \$30,000**House District: 36 / R**

Future Funding May Be Requested

Brief Project Description:

The design and feasibility study for a multi-purpose building

Funding Plan:**Total Cost of Project: \$30,000***There is no other funding needed***Detailed Project Description and Justification:**

A multipurpose building would house all the main core services in one building. This will make delivery of services easier for staff and villagers, reduce utility costs and allow agencies to coordinate services. The new multi-purpose building will be used for post office, council administration and conference room, utility offices, program services by Bristol Bay Native Association, Bristol Bay Area Health Corp. and the Village Public Safety Officer and include a jail cell.

These fund would hire a consultant to do a feasibility study and design and prepare a request for proposal.

Project Timeline:

Upon funding, the village would issue a request for proposals to hire a consultant to do the study and design.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Kokhanok Village Council
