Rep. Neil Foster,

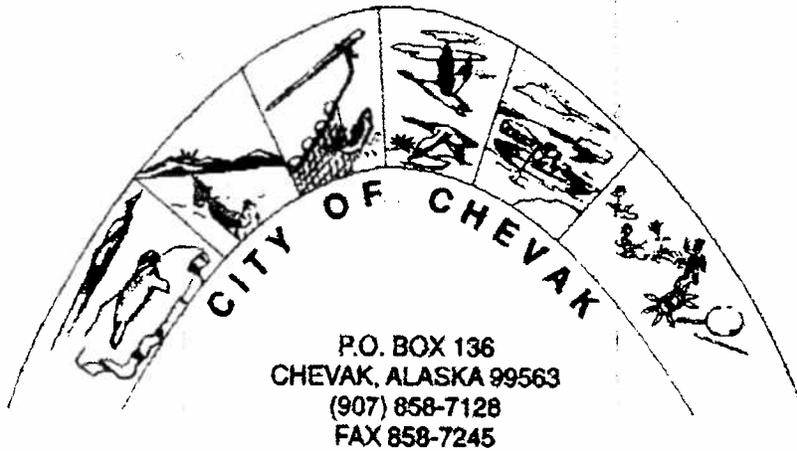

February 23, 2010

Greetings from the City of Chevak, I am writing this letter to inform you of our need for a dump truck for the City of Chevak. Last summer the City of Chevak was constructing a much needed access road for the community members. As soon as completing the road on the very last load, the axel broke. That was the last leg for the aging old used dump truck the City received for the Water and Sewer Project which started in 1995. The dump truck we currently have is old, and is costing the City money by constantly working on the equipment. The Community of Chevak has taken steps to repair our own and construct new roads for ease of access throughout our community. It will be a great help for the Community of Chevak if the State could help us purchase a fairly new dump truck. Thank you for your efforts in helping the people of Chevak.

Sincerely, Mayor Ulric J. Ulroan
