Denali Borough - Cantwell School Repairs and Upgrades

State Funding Requested: \$50,000**House District: 8 / D**

One-Time Need

Brief Project Description:

General repairs and upgrades to the Cantwell School.

Funding Plan:**Total Cost of Project: \$50,000***There is no other funding needed***Detailed Project Description and Justification:**

This project will consist of upgrades to the school to enhance energy efficiency through projects such as, but not limited to, bolt heaters, window replacements, fuel tank stands and various energy projects. The funds will also be used to complete minor maintenance that will greatly improve school safety including, but not limited to, new flooring in the kitchen, an outside walkway improvement, and science classroom safety equipment.

Part of the Cantwell School is over 50 years old and is suffering from high energy costs. Projects such as upgrading the bolt heaters and replacing windows will greatly help the School District to save money. The kitchen flooring was built using asbestos tiles and is now chipping away causing a health concern. The science classroom lacks an eye wash station as well as proper tables needed when working with materials in a basic chemistry class. This money will be used by the school to greatly enhance efficiency and safety.

Project Timeline:

FY 11- FY 14

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Denali Borough School District

Grant Recipient Contact Information:

Name: Dean Middleton
 Address: 280 Suntrana Rd
 Healy , AK 99743
