Interior Alaska Center for Non-Violent Living - Video and Audio Conferencing System Purchase

State Funding Requested: \$18,000**House District: Fairbanks Areawide (7-11)**

One-Time Need

Brief Project Description:

Interior Center for Non-Violent Living is currently working in partnership with the Fairbanks Courts to establish a video and audio conferencing system.

Funding Plan:**Total Cost of Project: \$18,000***There is no other funding needed***Detailed Project Description and Justification:**

Interior Center for Non-Violent Living is currently working in partnership with the Fairbanks Courts to establish a video and audio conferencing system. This closed circuit system will allow victims of sexual assault and domestic violence (including children) the opportunity to testify in civil and criminal cases from the safety of the shelter, where the victim will not run the risk of running into their attacker in the elevator, hall way, otr parking lot.

The shelter is in need of three Video Camera systems that include video and audio conferencing hardware and a 40-inch monitor and computer system. The total price per unit is \$6,000.

Project Timeline:

As soon as funds are received

Samsung LN40A550 Review

CNET - CNET staff - Aug 11, 2008 - Editorial review

Bottom Line: CNET did not review the Samsung LN40A550, but we did review a larger model in the series.

Although CNET did not review the 40-inch Samsung LN40A550 we did review the 46-inch Samsung LN46A550. Judging from their specification sheets the two Samsung flat-panel LCD TVs are basically identical but for screen size, so we expect the review of the 46-inch model to give a good indication of how the 40-inch model will perform. For more information, refer to the full review of the Samsung LN46A550. [Read full review](#)
