

Alaska Climate Change Impact Mitigation Program

FY2011 Request: \$500,000
Reference No: 45662

AP/AL: Appropriation
Category: Development
Location: Statewide
House District: Statewide (HD 1-40)
Estimated Project Dates: 07/01/2010 - 06/30/2015

Project Type: Climate Change / Erosion
Recipient: Various
Contact: JoEllen Hanrahan
Contact Phone: (907)465-2506

Brief Summary and Statement of Need:

Increase to the grant program that can be used by imminently threatened communities to address immediate community needs to include everything from planning to construction. Assistance would be for the most at-risk villages, and allow construction of facilities that will be sustainable over time. This project contributes to the department's mission of promoting a healthy economy and strong communities.

Project Description/Justification:

This is a continuation of a program that provides grant funding to imminently threatened communities to address immediate community needs. Planning assistance will be for the most at-risk villages, and provide a planned approach to shoreline protection, building relocation and/or eventual relocation of the village. At the funding level of \$500.0 the following will be accomplished:

- Hazard Impact Assessment Mini-Grants of \$50.0 to four eligible communities (Nelson Lagoon, Quinhagak, Nightmute, and Elim). These communities have already applied and been approved for projects. Previous funding was not available to award these projects.
- Community Planning Grants of \$150.0 for the two communities (Atmautluak and Kipnuk) that are near completion of their hazard impact assessments and ready to proceed to the planning phase.
