

FOR IMMEDIATE RELEASE

No. 10-107

**Governor Parnell Reduces State Spending
*Prioritizes Jobs and Families***

June 3, 2010, Anchorage, Alaska – Governor Sean Parnell today signed into law the three major appropriations bills: House Bill 300, the FY 2011 Operating Budget; House Bill 302, the FY 2011 Mental Health Operating and Capital Budget; and Senate Bill 230, the FY 2011 Capital Budget, which also includes FY 2010 capital and operating supplemental appropriations.

Governor Parnell has provided detailed information on capital projects across the state on the governor's website at:

<http://gov.alaska.gov/parnell/press-room/2010-budget/budget-map.html>

Spend Less, Save More, Invest for the Future

"We will grow Alaska by investing in infrastructure while spending less and saving more for the future," Governor Parnell said. The governor reduced the operating and capital budgets by \$336 million through line-item vetoes. "In reviewing the budget, I funded constitutionally established priorities -- resource development, education, public safety, and infrastructure. With these reductions and the surplus revenue projections for FY 2010 and FY 2011, more than \$400 million will be saved for future investment," the governor said.

Jobs Now

The capital budget contains \$1.26 billion for transportation, including highways and aviation projects; \$88.5 million for water and sewer projects; \$451.6 million for K-12 education and university projects; \$123.3 million for deferred maintenance projects; and \$77.2 million for renewable and other energy projects. Funding for fire stations and emergency services, seniors and elder care facilities, port and harbor development was also approved, along with \$20 million for the Port of Anchorage, \$40 million for the Tanana River Bridge, and \$35 million for the Port MacKenzie Rail Extension. "These are significant economic development projects that will create jobs and economic growth," the governor said.

The budget also includes \$397.2 million in general obligation bonds for education-related facilities, including the University Life Sciences Building in Fairbanks; K-12 schools in Alakanuk, Kipnuk, and Kwigillingok; the Near Island Research Facility in Kodiak; University of Alaska facilities in Mat-Su, Anchorage, Kenai, and Valdez; K-12 and vocational education facilities at Mt. Edgecumbe High School and Klawock; and expansion of the state museum in Juneau. These projects will appear on the November general election ballot.

"These new capital dollars, along with more than \$750 million in projects from previous capital budgets that are on the streets now, will put Alaskans to work," Governor Parnell said.

The budget also includes funding for accessing resources in the Foothills region, the Ambler mining district, and to Western Alaska.

Both the in-state and the large-diameter gas line projects are funded to bring Alaska's gas to Alaskans and to markets in the Lower 48.

Healthy Investment, Predictable Spending

The spring revenue forecast of \$5.3 billion in unrestricted general fund revenue for the next fiscal year is based on an average price per barrel next year of \$77.65.

"Because Alaska is so dependent on volatile oil revenues, it makes sense to look ahead 10 years and save for the day when we again are likely to have a sizeable deficit," Governor Parnell added. "The global economy is still struggling and that impacts Alaska's revenue stream. A more sustainable level of spending allows us to save more now so we can meet our constitutional obligations in the future. I have made reductions while maintaining a focus on life and safety needs, building infrastructure, and providing jobs now while using an even-handed approach across the state."

The capital budget passed by legislators, totaled \$3.2 billion. Governor Parnell met with nearly all 60 legislators over the past month to discuss their capital budget priorities. After working to address legislators' priorities, Governor Parnell noted that many of the projects that were reduced or vetoed would be considered in a future budget.

Operating Budget Reductions

House Bill 300, the operating budget bill, includes funding for public education, the university, public health and safety, transportation, and resource development. Governor Parnell reduced operating budget appropriations by \$36 million.

"My initial spending plan limited growth in state agency budgets to 2.2 percent, which was a significant reduction from the 10 percent that was requested," Governor Parnell said. "The Legislature shares my concerns with the size of the budget and maintained that budget discipline as they worked on the operating budget."

In the operating budget, Governor Parnell vetoed money associated with SB 13 (Denali KidCare expansion), as he opposes expanding eligibility and funding for publicly funded abortions.

HB 302, the state's mental health operating and capital budget, totals \$216 million.

"The spending plan I signed today will build Alaska's infrastructure for economic growth, fully fund public education and public safety, and address high-priority projects in districts across the state," Governor Parnell said.

Copies of the budgets and related documents are available at:

Notes

A Total Unrestricted General Fund Revenues: Unrestricted Revenues are from the Department of Revenue Spring 2010 Forecast. FY2010 Unrestricted Revenues are based on an ANS West Coast oil price of \$75.32 per barrel and estimated production of .650 million barrels per day. FY2011 Unrestricted Revenues are based on an ANS West Coast oil price at \$77.65 per barrel and .619 million barrels per day.

B Reappropriations and Carry Forward: Includes fund sources for reappropriations and other appropriations (typically roll-forwards of prior year authorizations - including American Recovery and Reinvestment Act of 2009 (ARRA) federal receipts) that do not require additional FY2010 or FY2011 revenue.

C Corporate Dividends: Includes funds made available to the State by the boards of the Alaska Industrial Development and Export Authority (AIDEA), Alaska Housing Finance Corporation (AHFC) and Alaska Student Loan Corporation (ASLC). The AIDEA dividend is \$22.7 million for FY2010 and \$23.4 million for FY2011, though \$23.1 million is appropriated in the Governor's budget. The total AHFC transfer for dividend, capital projects, loan programs and debt service is \$68.7 million for FY2010 and \$42.6 million for FY2011. Since AHFC's debt payments for general government purpose bonds do not require appropriation, the net transfers appropriated here are \$62.5 million for FY2010 and \$36.4 million for FY2011. There is no ASLC Dividend for FY2010 or FY2011.

D Public Education Fund: Legislation in 2005 established the Public Education Fund (PEF). One of the effects of this legislation was to remove expenditures for K-12 Foundation Program and Pupil Transportation from operating formula programs (line 12), since expenditures from the fund do not require appropriation.

The FY2010 and FY2011 proposed total K-12 Foundation Program and Pupil Transportation expenditures are shown on line 12. The table below shows the amount of Public Education Fund Funding included in the total K-12 Foundation Program and Pupil Transportation on line 12.

Public Education Fund Expenditures	Foundation	Pupil Transportation	Total
FY2010	997,572.3	61,149.7	1,058,722.0
FY2011	1,050,483.0	63,839.2	1,114,322.2
FY2012	1,066,048.4	64,934.0	1,130,982.4

E Duplicated Authorizations: These appropriations are in the budget twice, such as when funds flow in and out of a holding account or one agency pays another for services provided. The most significant examples of these type of expenditures include operating payments from Interagency Receipts and Capital Improvement Project Receipts.

F Debt Service: The Debt Service line (line 20) includes actual payment of debt obligations, primarily general obligation bonds, State debt reimbursement programs, certificates of participation (lease-financing), and International Airports revenue bonds. Most of these debt payments were made from the Debt Retirement Fund in FY2010, which is capitalized from a variety of fund sources. In FY2011, payment of debt is being made from multiple direct appropriations rather than the Debt Retirement Fund.

G Alaska Capital Income Fund Capitalization: The Alaska Capital Income Fund is authorized by AS 37.05.565. The fund consists of income earned on money awarded as a result of the State vs. Amerada Hess royalty case, estimated to be \$28-29 million per year, plus other appropriations. Those projects have been reduced in the FY2010 and FY2011 columns per the Alaska Permanent Fund Corporation Fund Financial History & Projections as of March 31, 2010.

H Other Fund Transfers: Other Fund Capitalization includes capitalization of various State operating funds, such as the Fish and Game Fund, Oil and Hazardous Substance Release Prevention Account, and others.

I PF Dividends / PFD Division Operations: Line 55 includes both the amounts for Permanent Fund Dividend (PFD) checks and other State operating costs of the PFD. In FY2010 the State will spend \$21.0 million for Department of Revenue, Division of Permanent Fund Dividends operations (\$7.4 million) and DHSS Public Assistance PFD Hold Harmless (\$13.6 million). In FY2011 the amounts will be \$21.1 million for Department of Revenue, Division of Permanent Fund Dividends operations (\$7.5 million), and DHSS Public Assistance PFD Hold Harmless (\$13.6 million).

The financial information for the Permanent Fund section (lines 54-56) is from the Alaska Permanent Fund Corporation Fund Financial History & Projections as of March 31, 2010. These financial statements are available on the Alaska Permanent Fund website: www.AFFPC.org.
