

# **State of Alaska FY2011 Governor's Operating Budget**

## **Department of Revenue Tax Division Component Budget Summary**

## Component: Tax Division

### Contribution to Department's Mission

The mission of the Tax Division is to collect taxes, inform stakeholders, and regulate charitable gaming.

### Core Services

- Facilitate voluntary compliance
- Enforce tax and gaming statutes
- Account for revenues
- Forecast future revenues for state fiscal planning purposes
- Inform stakeholders
- Participate in Governor's revenue and investment initiatives

### Results at a Glance

(Additional performance information is available on the web at <http://omb.alaska.gov/results>.)

#### END RESULT A: Maximize compliance with current tax and gaming statutes.

- Taxes collected compared to taxes due has been between 96% and 105% in the past five years and in FY2009 was 99.9%.
- In FY2009, 96% of known taxpayers filed their tax returns and made their tax payments timely.

#### Status of Strategies to Achieve End Result

- Forty new audit cases were opened in FY2009 due to an increase in audit staff. These audits will be worked throughout FY2010 in addition to maintaining a target of 20 new audits for that year.
- The Tax Division identified 84 new taxpayers in FY2009. The Tax Division continued to identify new taxpayers through compliance work in the mining license and tobacco tax types. In FY2010 the focus will be on the number of compliance activities conducted versus the number of new taxpayers identified.
- The Tax Division conducted 23 compliance projects in FY2009 which resulted in the identification of 84 new taxpayers and the continued education of existing taxpayers.
- In FY2009, the Tax Division issued 97% of tax refunds without incurring interest. This was short of the goal and a decrease from FY2008. In FY2010, the Tax Division will reduce this goal to 98% as it is believed, at times, to be in the best interest of the State to take additional time to properly analyze the correctness of a refund request.
- Total increase in audit hours for FY2009 was 8,102 which exceeded the goal. This was due to increased audit staff in several units in the Tax Division and opening audits in recently enacted tax programs.
- 99.9% of taxes were collected in FY2009 compared to taxes due.
- Despite implementation of an electronic system in FY2007, the Tax Division continues to receive incomplete and incorrect applications from many gaming permittees. In FY2009, approximately 48% of the applications required follow-up. This measure will be re-evaluated for FY2010 because the measure is more a function of the sophistication of the taxpayer than it is of the organization and competency of the Tax Division.
- The Tax Division conducted 100 gaming inspections in FY2009.

### Major Activities to Advance Strategies

## Key Component Challenges

- Recruiting, training, and retaining professional staff.
- Developing regulations, implementing reporting systems and managing data for Alaska's Clear and Equitable Share (ACES) legislation—the new oil and gas production tax.
- Maintaining the integrity of core tax programs in the face of resource demands from major revenue and investment initiatives and aging or nonexistent information management systems.
- Contributing to efforts to start large-scale natural gas development in-state and commercialization of North Slope natural gas reserves, in particular, through the Alaska Gasline Inducement Act (AGIA).
- Providing assistance to the governor and legislature in evaluating current and potential revenue sources and improving the quality of the financial data collected to support revenue forecasts with the goal of developing a stable fiscal policy for the state.
- Estimating oil and gas revenues in light of the highly volatile oil and gas market coupled with uncertainties in the U.S. economy.
- Creating and implementing education programs to ensure that Alaskans understand and comply with Alaska's tax laws.
- Creating and modernizing information management systems.

## Significant Changes in Results to be Delivered in FY2011

- The Tax Division will analyze and overhaul its collections program in an effort to collect and reduce outstanding tax liabilities owed to the state in a timely manner.
- The Tax Division will continue to restore functionality of core programs and services and insulate core services from erosion by major initiatives. The division's end result of maximizing compliance with tax and gaming statutes is directly related to its ability to focus on core services which includes audits, accounting and collections, and compliance programs.
- The Tax Division will conduct more taxpayer education activities in an attempt to increase voluntary compliance in all tax types.

## Major Component Accomplishments in 2009

- Implemented an oil and gas credit management program which allowed the Tax Division to expeditiously provide reports and data to the Governor's office and legislators and streamlined the credit purchase and due diligence review process which resulted in the timely issuance of over 120 tax credit certificates totaling over \$310 million.
- Held numerous public hearings and workshops on how to understand reporting forms and proposed regulations for the oil and gas production tax on multiple topics including oil and gas lease expenditures and overhead costs, oil and gas facility sharing, transportation, mid-year and conforming changes, and .025 credits.
- Continued to provide critical resources in support of the governor's plans regarding a gas line.
- Continued to assist the governor and the legislature in dealing with fiscal issues and other legislation, and provided information and testimony on tobacco products tax, tax credit for tourism marketing, cruise ship gambling tax, repeal of the federal estate/gift tax, extension of motor fuel tax suspension, mining license tax and geothermal electricity production tax credit.
- Continued recruitments for the auditor series positions: Corporate Income Tax Auditors responsible for the Alaska corporate net income tax; Oil and Gas Revenue Auditors responsible for production tax; and Tax Auditors

responsible for other taxes and assessments. The Division recruited and trained one production tax auditor, one tax auditor and one corporate income tax auditor during FY2009. In addition, the Tax Division hired three audit masters to focus on oil and gas tax matters and assist in oil and gas revenue forecasting. The Tax Division also entered into a contract with an outside audit firm to assist in oil and gas production tax and credit audits.

- Started a project to remove persons convicted of various crimes from participating in charitable gaming as required by gaming statutes.
- The Tax Division, in conjunction with the Commissioner of Revenue and the Departments of Natural Resources and Commerce, Community and Economic Development developed an economic modeling tool for Alaska's mineral resources. These agencies worked together to create a single economic model that can provide insights into the various economic questions that underlie the development of sound state policies and potential legislation affecting mining in Alaska.
- Closed appeals from over 150 taxpayers of assessments in all tax types and charitable gaming.
- Developed a web portal to allow online filing for charitable gaming manufacturers' pull-tab stamp purchases and reports and distributors' monthly pull-tab returns.

A long-term, non-permanent Economist I position has been added to the Economics Research Group in the Tax Division. This is a range 16 position with an estimated annual cost of \$65,500 which will be covered by vacancy and not hiring a college intern position.												
The Tax Division has two permanent Economist III positions, however lacks an entry level economist position in which to hire entry level candidates. The division has employed college interns to assist the Economics Research Group, training them to become knowledgeable of the State's processes and information systems. The interns are engaged in database testing, analysis, and report compilation for the revenue forecast. The Internship Program Guidelines specify that, "The entire internship should be structured as an introduction to permanent career opportunities with the State of Alaska." This Economist I position will provide an entry point supplemental to the internship program for the beginning level economist.												
<b>ADN 0401017 Adjustment for Electronic Equipment Allowance</b>	LIT	0.0	10.2	0.0	-10.2	0.0	0.0	0.0	0.0	0	0	0
This adjustment between contractual and personal services will allow for the correct IRS accounting of employee allowances for electronic devices. State employees that are required to carry cell phones (or other electronic devices) are given the option of receiving a state-owned phone or using a personal cell phone for which they receive an allowance to maintain a personal phone plan. Equipment allowances paid to employees are taxable, and therefore issued through the payroll system as a personal services expenditure rather than paid directly to a vendor as a contractual service.

1004 Gen Fund	OTI	-270.0	0.0	0.0	-270.0	0.0	0.0	0.0	0.0	0	0	0
In the FY2009 budget, \$540.0 in GF for audit assistance was included in the base by OMB but removed by Legislative Finance as a one-time item (IncOTI). Legislative Finance included \$270.0 in FY2010 as a one-time item. This amount is removed from the FY2011 budget.												
<b>Reverse FY10 Compensation of Municipalities for Loss of Motor Fuel (Aviation) Tax Shared Revenue 4SSLA CH 1 Sec 7</b>												
1004 Gen Fund	OTI	-55.0	0.0	0.0	0.0	0.0	0.0	-55.0	0.0	0	0	0
This reverses the appropriation for the amount necessary in FY10, estimated to be \$55,000, holding municipal governments harmless for the loss of aviation fuel taxes that would be shared if the motor fuel tax was not suspended.												
Legislation suspended collection of all motor fuel taxes for one year, including fuels for highway use, watercraft and aviation. Under AS 43.40.010(e) sixty percent of the net proceeds of taxes on aviation fuel are refunded to a municipality that owns or leases and operates an airport. With higher than expected oil prices the State of Alaska is receiving surplus revenues from oil and gas taxes and royalties. At the same time, the municipal governments that operate airports are not receiving additional revenues and may not be in a position to make up for this revenue loss.												
<b>Alaska Gasline Inducement Act Information Reporting System</b>												
1213 AHCC Rcpts	IncOTI	300.0	0.0	0.0	300.0	0.0	0.0	0.0	0.0	0	0	0
The Alaska Gasline Inducement Act (AGIA) Information Reporting System is an integrated accounts receivable system that will electronically receive and process the licensee's monthly invoices and quarterly reimbursement requests. The current solution is an Excel spreadsheet approach that requires 100% manual processing resulting in substantial labor costs and increased opportunity for errors.
