Additional Information / Prior Funding History:

None.

Project Description/Justification:

In May of 2005, a section of Petersville Road near MP 14.5 at Kroto Creek failed. This section of road climbs along the side of the hill and is formed on steep embankments. Due to spring thaw and water, a portion of the road embankment slid down the hill. Repair of the embankment failure by Central Region Maintenance and Operations forces is beyond what is considered maintenance. This supplemental request is needed to close the project.
