Brief Summary and Statement of Need:

Funding is required to meet the minimum requirements of the proposed EPA Municipal Separate Storm Sewer System (MS4) Permit. The proposed MS4 permit requires the State to have a Geographic Information System (GIS) mapping system of the Municipality of Anchorage's entire storm drain system and a program to track, maintain and update the system. The State currently does not have a GIS mapping system and will have to begin this program from scratch. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
