

Haines - Airport Drainage Improvement and Taxiway, Runway and Apron Rehabilitation, and Fencing

FY2011 Request: \$7,400,000
Reference No: 49104

AP/AL: Allocation

Project Type: Construction

Category: Transportation

Location: Haines

Contact: Christine Klein

House District: Cordova/Southeast Islands (HD

Contact Phone: (907)269-0724

5)

Estimated Project Dates: 07/01/2010 - 06/30/2015

Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

The requested funding will be used to address pavement problems on the apron, taxiway and runway, fix drainage issues and replace damaged fencing. These improvements will be essential if Haines becomes a haul/logistics port for gas pipeline construction. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

Additional Information / Prior Funding History:

None

Project Description/Justification:

Pavement on apron and sections of taxiway and runway has a low Pavement Condition Index (PCI) and requires resurfacing. Subsurface drainage structures have settled and the resulting drainage deficiencies cause frost heave problems, humps in the pavement and flooding on the apron. Existing fencing along the apron has been damaged by frost heaves, and lighting is required on the apron for security and safety.
