

Ketchikan - Replacement and Rehabilitation of Municipal Bridges and Trestles **FY2011 Request: \$500,000**
Reference No: 50677

AP/AL: Allocation **Project Type:** Construction
Category: Transportation
Location: Ketchikan **Contact:** Frank Richards
House District: Ketchikan (HD 1) **Contact Phone:** (907)465-3900
Estimated Project Dates: 07/01/2010 - 06/30/2015
Appropriation: Congressional High Priority Community Projects

Brief Summary and Statement of Need:

This is a new FY11 capital request for a congressional high priority project requested by the City of Ketchikan. This project is a joint effort between the city and state to identify off-system bridges that require repair and replacement, and design as appropriate. This project contributes to the Department's Mission by reducing the potential for injuries, fatalities and property damage and by improving the mobility of people and goods.

Additional Information / Prior Funding History:

None. Congressional project from the Consolidated Appropriations Act, 2010. - Gov \$500.0 Leg adds \$500.0

Project Description/Justification:

Ketchikan City bridges are in a state of crisis and bridge inspection reports paint a grim picture. Many of the bridges are load restricted or partially closed and some are the sole access for residences along the way. Generally, 20-30 years is a reasonable design life in Ketchikan's wet environment, and many of these bridges may be 50-90 years old. While not as desperate, several other bridges are along urban collector routes and are subjected to higher traffic levels. In keeping with the Commissioner's mandate to "avoid worst first" ("Let's Get Moving 2030," Strategies and Actions, Strategy 2, Action 2.3) these demand repair before getting to the same deteriorated state.
