Has this project been through a public review process at the local level and is it a community priority? Yes No

Location **Airport Heights Elementary School**

Project Title: **Purchase Equipment in Support of Technology**

Amount of Funding Requested \$20,000.00 **Primary House District:** 22

Total Funding to complete project \$20,000.00 **Secondary House District(s):** 23

Project Description **Principal's Priority** 1

Project Items: 6 Mac Mini Computers with DVD, 6 LCD Projector with Document Camera (serves for cable and computer projection) for all instructional venues.
Technology Grant - The school facility is aging and has not been renovated in over 20 yrs. It is lagging in terms of technology capacity and is in need of developing a technology program that is aligned with State Standards and on a par with other Anchorage School District facilities. The school had been able to upgrade the Federal Title 1 funding. This allocation will continue to build the school's infrastructure to meet the needs of our students. Airport Heights provides a differentiated curriculum to meet the needs of a diverse learning community. Our programs are increasingly dependent on technology resources as a means to deliver instruction and practice opportunities to students from a wide range of abilities and backgrounds.

Benefits if Project is Funded

If completed the project will benefit students by improving the delivery of instruction, decreasing the amount of time that teachers need to prepare materials, and increasing the engagement of students. Students will benefit as users of technology as applies to future educational opportunities and is a preferred medium for most students.
