February 11, 2011

Dear Representative Lynn,

It is with great enthusiasm that we, the Executive Board of the Willard L. Bowman PTA support our school's efforts to add additional smartboards to our classrooms so that all students will benefit from this tool that supports and expands our curriculum.

It is so critical that our children have the proper tools to enable them to learn to be functional and productive citizens in today's society and that is why it is so important for all of our classrooms to have these smartboards to focus our children on doing exactly that.

It is true that when students are engaged, they are learning, therefore, the smartboard gives the teacher the ability to make interactive lessons to use with the students which increases student engagement. Also, there are resources available to teachers online that will better meet the needs of all students.

We have made incredible efforts to do fundraising in order to raise the money to have every classroom at Willard L. Bowman equipped with these smartboards including bake sales, silent auctions and more, however, so much of our money goes right back to the school with little left to give to the cost of these smartboards.

We support and appreciate the efforts of our school and we very much appreciate your interest in helping our students at Willard L. Bowman Elementary develop these important skills through the use of these smartboards.

Thank you in advance.

Executive PTA Board
Willard L. Bowman Elementary

Subject: Smart Board Prices

Representative Lynn

Here is what I believe is the price breakdown from the Chariot Group.

One Smart Board installed - \$3,900.00

We also need to update 4 of our older boards.

One retro fit kit for the Smart Board - \$2,700.00

Ideally we need 20 Smart Boards - and this still would not put one in every room. And we need 4 retrokits.

Thank you for your work for the improvement of our school.

Darrell
