Has this project been through a public review process at the local level and is it a community priority? Yes No

Location **Kasuun Elementary School**

Project Title **CCTV / Security System Upgrade**

Amount of Funding Requested \$175,000.00

Primary House District: 30 **Secondary House District(s):**

Primary Senate District: 0 **Secondary Senate District(s):**

ProjectDescription:

InfrastructurePriority: A3

Provide a new intrusion detection security system. This zoned system will be replaced with new GE Security Systems. The new system benefits include individual device addressability, video camera integration, communication with the District's enterprise server, remote monitoring and reporting, and the future ability for upgrading to access control. Replacement of these obsolete and failing systems will increase security system reliability and reduce maintenance costs. In addition, this new system will reduce the number of false alarms which will lead to operational savings of after-hours call-outs and charges from local police department for response to a malfunctioning component in the existing system. The CCTV portion of the project include installation of modern day / night wide dynamic range cameras, digital video recorders and viewing control stations. This new system is intended to deter behavior problems, suppress crime and assist with apprehension of miscreants. This project will lead to reduce operational cost due repairs associated with District-wide vandalism that annually exceeds \$250,000 □

Benefit:

Increase safety by monitoring critical building areas. □ Reduction in repairs for vandalism.

Impact:

Increase risk from vandalism.

Project Start Year 2012

Project Finish Year 2013
