

**Agency: Commerce, Community and Economic Development
Grants to Municipalities (AS 37.05.315)**

Grant Recipient: Unalakleet

Federal Tax ID: 92-6011026

Project Title:

Project Type: Other

Unalakleet - Erosion Control

State Funding Requested: \$2,000,000
One-Time Need

House District: 39 / T

Brief Project Description:

Seawall funding, rock revetment, and piling, develop an a hazard mitigation plan.

Funding Plan:

Total Project Cost:	\$13,700,000
Funding Already Secured:	(\$11,700,000)
FY2012 State Funding Request:	<u>(\$2,000,000)</u>
Project Deficit:	\$0

Detailed Project Description and Justification:

Complete the seawall that is funding now through the Corp of Engineer. Rock revetment is planed to go around the mouth of the river for approximately 700 feet and plans call for pile driving sheet metal for another 400-500 feet. This leaves part of the river mouth not protected with piling or rock revetment. If this section of the river mouth is not protected by either rock revetment or sheet piling, it could lead to a compromise of the structural integrity of the entire project. If only a portion of the erosion control is built, the next storm may wash away whatever work is done next summer. An additional 2 million would finish the project completely. Our new study from the corp of engineers states we need these additional monies to complete the project, piling was more expensive than what was first estimated.

Project Timeline:

The project timeline is hoping to start this summer after the first phase is done with the Corp of engineer.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

The City of Unalakleet

Grant Recipient Contact Information:

Name: Herbert Ivanoff
Title: City Administrator
Address: Box 28
Unalakleet, Alaska 99684
Phone Number: (907)624-3531
