Detailed Project Description and Justification:

Funding will purchase a vehicle for the Hollis school for student transportation and activities. Hollis is on the road system on Prince of Wales Island (POW), but has no gym and less recreational opportunities than most POW communities. To facilitate a complete education, students and staff are moving between island schools on a daily basis. Mileage costs are prohibitive for personal automobiles and restrict student access to sports, academic and recreational opportunities. Staff are often denied direct participation in trainings due to transportation costs. This funding will ensure Hollis students receive the same educational and recreational opportunities that all Alaskan youth deserve. The project is strongly supported by the community.
