Primary Senate District: 0 **Secondary Senate District(s):**

Project Description

Principal's Priority 1

The goal of Kasuun is to provide the teachers with the latest technological tools to assist them in teaching, but also to provide the students with the best possible technological training that is available so due to the fact that our computer lab is outdated and the computers that are in the lab are all over 3 years old it is apparent that we need to upgrade our computers. In doing so we will have the tools to ensure that our students receive the best possible opportunities available to them to become prepared to meet the needs of an ever changing world.

Benefits if Project is Funded

The benefit to obtaining these computers for our lab will enable each student to obtain the necessary skills so they can learn about the multi-media and technological tools to assist them in their educational experience. We live in an ever-changing world that revolves around technology with our the basic skills within this field we cannot expect our students to be successful as they prepare to meet the demands of life.

Impacts if Project is not Funded

of Students impacted by project 450

Project Start Year 2011

Project Finish Year 2011

Project has matching funds are available **No**

Project has prior state funding available **No**

Project has federal funding available **No**
