Project Description

Principal's Priority

3

The goal of Kasuun is to provide the students with the understanding of the fine arts, whether they are in music, drama, or art. It is crucial that students are given every occasion and opportunity possible to help them understand that the fine arts are essential to creating well-rounded students.

Benefits if Project is Funded

The benefit of obtaining this sound system will enhance the arts within our school. So many times the arts are the first area that are cut from the educational system. By purchasing this system it will allow our student to perform in a variety of activities that they have not had the opportunity to do in the past.

Impacts if Project is not Funded

Without this upgrade we will continue to work with equipment that is over 14 years old and continue to spend needed site money to fix the breakdowns that occur every year.

of Students impacted by project

Project Start Year 2011

2012 **Project Finish Year**
