Anchorage - Road Reclamation

State Funding Requested: \$105,000**House District: 29 / O**

One-Time Need

Brief Project Description:

This project will reclaim deteriorating local roads in South Anchorage, to preserve the road base and prevent major costly road repairs in the near future.

Funding Plan:

Total Project Cost:	\$105,000
Funding Already Secured:	(\$0)
FY2012 State Funding Request:	<u>(\$105,000)</u>
Project Deficit:	\$0

Funding Details:

Once the priority streets are identified, the state grant may be matched with bond funds to complete a street segment.

Detailed Project Description and Justification:

The surface of many of the local roads in South Anchorage are deteriorating. Reclaiming is an economical alternative to full reconstruction. Reclaiming the surface preserves the road base thereby extending the life of the roadway. Improvements are expected to include resurfacing and improving ditches or replacing curbs as needed. Some local road bond funds may be used to supplement the state grant to fund construction. Roads eligible for reclamation under this grant are located south of Raspberry Road and Nathan Drive, and east of Minnesota Drive, Chad and Cheryl Streets, and north of O'Malley Road, and west of the Seward Highway.

Project Timeline:

Reclamation is expected to occur in 2011 and 2012.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Municipality of Anchorage

Total Project Snapshot Report

2011 Legislature

TPS Report 56624v1

Has this project been through a public review process at the local level and is it a community priority? Yes No

Taku/Campbell Community Council

Resolution Number 2011-01

WHEREAS, the Taku/Campbell Community Council area has some of the worst condition residential streets in the Municipality of Anchorage;

WHEREAS, many area streets are riddled with frost heaves and pot holes due to improper drainage, which needs maintenance attention to prevent further deterioration and major road reconstruction;

WHEREAS, the lack of proper drainage on certain area streets flood houses every year, causing extensive damage to public and private property;

WHEREAS, residential streets in the Taku/Campbell Community Council area, while having received some patching and chip sealing, hasn't had any substantive reconstruction in the last six years;

WHEREAS, inadequate street lighting poses pedestrian, traffic and home safety dangers;

WHEREAS, area property values can decrease due to poor drainage, flooding and road conditions; and

WHEREAS, retaining, maintaining and improving infrastructure assets are keys to local economic opportunities and preventing major repair costs in the future.

THEREFORE BE IT RESOLVED, the Taku/Campbell Community Council supports state and municipal funding for flooding, glaciations and drainage relief, pavement rehabilitation, pedestrian safety improvements, traffic calming and safety improvements, and installing and upgrading street lights in the Taku/Campbell Community Council area.

PASSED: 9-0, February 10, 2011
