Brief Summary and Statement of Need:

SERRC - Alaska's Educational Resource Center - is housed in a 1950's era building. The antiquated oil-fired boilers, air handlers, and mechanical controls have become inefficient and increasingly unreliable. This building houses 30 employees who serve school districts statewide, and serves approximately 750 adult students on site through the Learning Connection on an annual basis. This request funds replacement of two boilers and plumbs them appropriately for a building of this type.
