Project Description/Justification:

Funding is requested for energy upgrades in the Juneau Army Guard facilities. This funding request takes advantage of federal funding opportunities that are available to renew Army National Guard facilities, reduce deferred maintenance, and lower operational costs. The replacement of exterior lights with LEDs at the Juneau Armory works to reduce operating and maintenance costs and increases lighting at the armory. Priorities and cost estimates may need to be changed to accommodate emergency maintenance projects not listed, actual project costs, and other considerations.
