

**Anchorage Metropolitan Area Transportation Solutions
(AMATS): O'Malley Road Reconstruction**

**FY2012 Request: \$4,000,000
Reference No: 51556**

AP/AL: Allocation

Project Type: Construction

Category: Transportation

Location: Anchorage Areawide

House District: Anchorage Areawide (HD 17-32)

Impact House District: Anchorage Areawide (HD 17-32)

Contact: Frank Richards

Estimated Project Dates: 07/01/2011 - 06/30/2018 **Contact Phone:** (907)465-3900

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

Project will reconstruct O'Malley road to a 5 lane facility from the Seward Highway to Lake Otis and a 3 lane section east from Lake Otis. Project also includes a paved separated pathway, and improvements to signalized intersections at Birch and Lake Otis. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

Additional Information / Prior Funding History:

None.

Project Description/Justification:

O'Malley Road is a narrow two-lane road with minimal shoulders. It provides a primary access to the Hillside, which continues to see the highest level of residential growth and development in Anchorage. The road operates at capacity during peak hours with several high accident locations in this corridor. The proposed project will be the first major improvement to the roadway in 30 years and is needed to improve traffic flow and safety by providing separated lanes for turning movements.
