

Statewide - Various Airports Snow Removal and Safety Equipment

FY2012 Request: \$10,000,000
Reference No: 38582

AP/AL: Allocation

Project Type: Equipment / Commodities

Category: Transportation

Location: Statewide

House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40)

Contact: Marc Luiken

Estimated Project Dates: 07/01/2011 - 06/30/2018

Contact Phone: (907)269-0730

Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

This project is to acquire equipment associated with managing, and improving the state's aviation infrastructure. The equipment to be purchased will include various airport snow removal and safety equipment yet to be determined. These pieces of equipment are necessary to the safe operation of aircraft for the traveling public. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage, by improving the mobility of people and goods.

Additional Information / Prior Funding History:

\$10,000,000 - Ch 43 SLA 2010 Sec 7 pg 41 ln 6; \$4,300,000 - Ch 82 SLA 2003 Sec 1 pg 42 ln 6. This project request was requested as regional allocations for several years.

Project Description/Justification:

The State owns or operates approximately 253 rural system airports. Some of these airports are highly regulated Part 139 certificated airports. Most State owned airports have federal funding obligations that create additional management and grant compliance issues including snow removal and aircraft rescue and fire fighting to keep the airports open and safe. The State seeks federal Airport Improvement Program (AIP) funding for snow removal equipment from the Federal Aviation Administration. This is a request to cover all purchases of snow removal and safety equipment statewide at various rural State owned airports rather than regional requests so as to simplify the management process.
