Brief Summary and Statement of Need:
This is a new capital request because of a STIP amendment that occurred after the December 15 release of the Governor's FY2012 budget. This project will raise the grade and replace the Livengood Creek Bridge with a culvert. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

Project Description/Justification:
The Livengood Creek Bridge is located on the Livengood Maintenance Station access road. The bridge length is 22 feet and the width 23 feet. The bridge deck is timber, the driving condition is unsatisfactory and the bridge is structurally deficient. Maintenance has requested to raise the grade and replace the bridge with a culvert.

Additional authority is being requested due to an increase in the cost estimate.
