*Funding Details:**2011 state grant funded initial design.***Detailed Project Description and Justification:**

This project will reconstruct the road base of the segments of the roadway to be determined during the concept report phase.

A 2011 state grant funded initial design efforts. Construction funding is proposed as a partnership of state grants and local road bonds. This road has severe frost heaving resulting in safety concerns for motorized and non-motorized users.

The grant funding may be used for utility work, obtaining rights of way and easements, and any work associated with rehabilitating the street and its amenities.

While the total projected cost exceeds this year's request, the current funding level will enable the Municipality to proceed with the project by limiting the scope.

Project Timeline:

Design expenditures are anticipated in 2012 and 2013. Construction expenses are expected in 2013 and 2014.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:
