Project Title:

Project Type: Maintenance and Repairs

Chignik Lagoon - Clinic Renovations

State Funding Requested: \$30,000
 One-Time Need

House District: 37 / S

Brief Project Description:

Repair Rotting floor and black mold issues in our health clinic

Funding Plan:

Total Project Cost:	\$40,000
Funding Already Secured:	(\$10,000)
FY2013 State Funding Request:	<u>(\$30,000)</u>
Project Deficit:	\$0

Detailed Project Description and Justification:

The Clinic is the only health care facility in the community and it is in desperate need of repairs. Water damage has created black mold and a rotting floor in the trauma treatment area and in the kitchen. Floors, cabinet and plumbing need to be repaired and/or replaced. Materials and shipping are estimated to cost \$30,000. The village will provide labor estimated at two workers at \$25/hour for 160 hours + benefits at 25% = \$10,000 as in kind match, along with all equipment needed and insurance for the workers and project. The village will also pay all disposal costs as it's in kind expenses.

This project has only come to attention recently, and it will go through public review prior to the State 2013 budget approval. At this time, however, it has not been approved by official action. Due to the immediate health hazard, the village has opted to advance this project.

Project Timeline:

As soon as funds become available for this project, the village will order the supplies and begin the work.
