Detailed Project Description and Justification:

This project will provide an after school program for children K- 6 who reside in the Kasilof area. The program will be conducted by the Kenai Peninsula Boys & Girls Club at the Tustumena Elementary School. The program will include tutoring in academic subjects , sports and recreational activities, , computer training, community service, arts & crafts, citizenship activities, and outdoor survival skills.

The families that reside in the Kasilof area have limited options for their children after school. Because Kasilof is a rural area there are no public facilities/programs that working parents can send their children to. This is a concern because the children need a safe supervised environment during the after school hours. This project will provide a comprehensive program that will be a positive place for kids to learn and play.
