Project Description

Principal's Priority 1

Support all core content areas, as well as project-based learning, with the continued integration of technology (software and equipment) such as: audio-recording equipment, digital storytelling equipment, mobile laptop lab with storage cart, mobile devices, color printer, software correlated with district initiatives and Grade Level Expectations. Please note that this grant request compliments the current, ongoing fundraising endeavors of our PTA, who work diligently toward funding technology integration throughout the school.

Benefits if Project is Funded

This grant will allow more students to access and benefit from 21st Century learning by providing teachers with the ability to access and use technology daily in their classrooms (as opposed to weekly computer lab time). This technology will be supported through our active technology committee and district specialists so that more students will benefit from this integration on a daily basis.

Project Description **Principal's Priority** 3

Purchase of ice skates and related equipment for students to use at recess, during PE time, during special events, and also during evening events.

Benefits if Project is Funded

Rogers Park has a long-standing history of sponsoring ice-skating events both during the school day and for the families in the evenings. This grant will allow us to replace the many pairs of old, donated skates that we have used over the years and will allow for us to provide more skates to more students so that we can encourages more of our students to ice skate regularly throughout the week.

Project Description **Principal's Priority** 2

Rogers Park is seeking funding to purchase supplemental materials, both for remediation and enrichment, to support and compliment the district-adopted curriculum. Specifically, this request is to purchase leveled readers for the primary level and leveled chapter books with teacher materials for intermediate students. Purchase supplemental materials to support and supplement writing and math instructions this also included in this request.

Benefits if Project is Funded

Many of our teachers are implementing the "Daily 5" literacy model. Since we know that students need to be engaged in independent, meaningful reading practice and activities, teachers will be able to work with small groups and with individuals, uninterrupted. We believe that more of our students will gain proficiency in reading and writing if we provide a means through additional, differentiated materials.
