Funding Details:

Our agency has \$8,000 from a federal source that can be used for this project. We have a total budget from federal, state, and local funding that total approximately 2,400,000, however, no other funds are available for this project.

Detailed Project Description and Justification:

IAC owns two buildings that house 14 units for individuals in transition to permanent housing or in permananet supportive housing. The buildings are both in need of paint to increase the life of the buildings. The trim on both buildings is beginning to show bare wood and signs of wood decay. One building is sided so we can power wash the siding once we paint the trim. The other building will need to be painted in its entirety. Both buildings are 3 story and approximately 3,300 sq feet per floor. By painting the buildings this summer we can avoid having to replace the trim. Total cost to paint both buildings is \$33,000

Project Timeline:

Once funding is secured, IAC has already gotten quotes and would proceed with the project with a completion date of August, 2012
