

Agency: Department of Transportation and Public Facilities**Project Title:****Project Type:** Planning and Research

Muldoon Road and Glenn Interchange Improvements

State Funding Requested: \$450,000
One-Time Need**House District:** Anchorage Areawide (16-32)**Brief Project Description:**

Traffic, safety and preliminary design study for Muldoon/Glenn Interchange

Funding Plan:

Total Project Cost:	\$450,000
Funding Already Secured:	(\$0)
FY2013 State Funding Request:	(\$450,000)
Project Deficit:	\$0

Detailed Project Description and Justification:

The Muldoon Road/Glenn Highway Interchange has become increasingly dangerous and congested with traffic from the combination of the new shopping structure at Tikahtnu Commons, the VA clinic, access to Joint Base Elmendorf-Richardson and Bartlett High School. Semi-trailer trucks servicing the hospital and shopping area must exit the Glenn to reach their destination. Traffic is consistently backed up on to the highway. This area is also a safety concern for pedestrians and students attending Bartlett High School. The Department of Transportation recognizes the need to address these concerns through a traffic, safety and pedestrian study in order to propose a long term fix.

Project Timeline:

Study to begin as soon as FY 2013 funds are received

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Department of Transportation and Public Facilities
