*Funding Details:**Not Applicable***Detailed Project Description and Justification:**

The project consists of a new shop at the Denali Borough Landfill.

The shop will house the heavy equipment and will allow for year around maintenance and repair on the equipment.

Because of the size and weight of the equipment used at a landfill the floor must be thicker and reinforced with sufficient steel to prevent cracking.

This appropriation will fund the foundation and reinforced concrete slab for the shop.

Other funding will cover the rest of the building costs.

If funding is received at the start of the fiscal year construction will be complete by the end of September 2012
