No previous funding.

**Project Description/Justification:**

The mission of the Medallion Foundation is to reduce aviation accidents in Alaska by fostering a new safety culture and by promoting higher safety standards through training, research, education, auditing and advocacy.

For the past decade, a total of \$17 million from the federal government has funded the Medallion Foundation. Federal delegates indicate that the state must step up to provide matching funding for continuation of the program. Because of changes in federal earmarks, the annual allocations for the Medallion Foundation are lost.

Medallion Foundation participants transport 90.3 percent of the passengers enplaned in Alaska by carriers operating in Alaska. Those same participants carry 95 percent of the cargo and mail transported within Alaska. Participants in the safety program serve 100 percent of the communities in Alaska. The voluntary participation results in a higher level of air safety for all of Alaska's communities and for residents that fly on these carriers. Continued work of the Foundation will provide continued improvement in aviation safety for the citizens of Alaska and continued contributions to reducing fatal accidents.
