Project Description/Justification:

The Joint Base Elmendorf Richardson (JBER) Fire Marshal has notified the Department of Military and Veterans Affairs, a tenant of JBER, that the Camp Denali facilities no longer comply with the fire codes and standards for facilities located on Department of Defense installations. A fire sprinkler system will be installed at Camp Denali Building 49000. This project addresses identified code compliance deficiencies. Priorities and cost estimates may need to be changed to accommodate emergency projects not listed, actual project costs, and other considerations.
