Additional Information / Prior Funding History:**Project Description/Justification:**

The division is striving to protect visitor health and safety by providing safe, clean, and well maintained parks but State Parks has over \$60,000 million in deferred maintenance needs which are causing serious health and safety concerns and are generating copious public comments that are embarrassing to the State of Alaska. This request will fund multiple projects within each of the seven regional areas managed by Alaska State Parks. On a percentage basis, each area across the state will have funding to decrease their specific deferred maintenance, including upgrades, repairs or replacement of roads, trails, shelters, toilets, drinking water systems, parking areas and other facilities to keep them from becoming even greater hazards.

In addition, Division of Forestry facilities will have needed repairs and maintenance.
