This request is project #2 on November 7, 2011 Capital Improvement Projects, Major Maintenance list. This project completes the replacement of the heating system at the 14,749 square foot facility that was built in 1980. It will provide a new boiler module, boilers, and direct digital controls; and replace the forced air furnaces with a new hydronic heating system. The capacity of the electrical service will be increased to solve a major code deficiency and safety hazard.
