**Brief Summary and Statement of Need:**

The current crime lab facility, completed in 1986, houses the state's forensic laboratory, serving all law enforcement agencies in Alaska. Due to the advent of DNA analysis, an increase in police presence around the state and greater court evidence demands, the facility is no longer physically capable of housing the personnel and instrumentation necessary to meet the state's forensic analysis demands. This project would fund the replacement of the current, over-crowded facility with a new facility to include increased laboratory, mechanical, evidence storage and unfinished shell space. This plan meets immediate needs of the crime laboratory while providing a highly flexible platform for addressing future needs.
