The Department of Revenue requests an increase in pension funds in the Alaska Retirement Management Board (ARMB) component to correspond with the interagency receipts being added to the Treasury component for FY13 wage and benefit increases. Treasury's interagency receipts are collected from the pension funds managed by ARMB; if additional funds are not available for ARMB to pay for the increases, then Treasury's funding for investment staffing costs will be uncollectible.

Senate Finance subcommittee changed the \$40,000 increment for the second year fiscal note for SB 217 dealing with state guaranteed veterans mortgages, from a maintenance increment to a one time increment. The annual operating costs of this program need to be review for each of the next several years.

The US Department of Housing and Urban Development (HUD) has converted Public Housing Authorities to the Project-based Asset Management (AMP) format.

AHFC's Central Office Cost Center (COCC) provides management, supervision and oversight of all AHFC's rental housing developments. To cover the management costs, it receives a management fee from each individual Asset Management Project (AMP). In the past, these have been recorded as federal

receipts.

HUD now considers the Central Office Cost Center to be its own AMP. They are requiring any fee received from another AMP to be recorded as corporate receipts, not federal receipts.

Once the fee is paid there are no longer any federal restrictions attached to the funds received as management fees. Because of this conversion, it is no longer necessary to allocate expenses, such as salaries, to each housing program/project, thus reducing the need to split accounting transactions across the various HUD programs administered by AHFC. AHFC is not replacing HUD funding, just the way for which it is accounted.

This is an adjustment to the original conversion done in FY2008. Since then, HUD has made adjustments that require AHFC to have certain employees be paid under the COCC, rather than directly to the AMP. The positions are paid for through the Management Fees, which have a Corporate Receipt designation; however, the original source of the funds are from Federal Receipts.

This increment is to increase federal receipts funding levels for the Multifamily Section 8 New Construction and the Conventional Low Rent programs. Funds are anticipated to be added in order to take advantage of HUD's inflation factors used in developing the upcoming year's funding levels to continue to administer, operate, and maintain AHFC's rental housing units throughout the State.

Travel – \$35.0 for In-State Administrative Travel, \$25.0 for Out of State Administrative Travel related to training.

Contractual – \$381.8 for increases in Utility expenses, \$250.0 for maintenance and service contracts for rental units owned by the Corporation.

Supplies – \$55.8 for Maintenance Materials related to rental units owned by the Corporation.

Landlords in the private rental market enter into a Housing Assistance Payment (HAP) contract with AHFC. Rental units that meet HUD housing quality standards (HQS) and rent reasonableness criteria are likely to be considered eligible rental properties. The amount of rent AHFC may subsidize is based upon the unit size, the community in which the unit is located, and the comparable market conditions.

This request is for two new exempt positions at the Alaska Permanent Fund Corporation (APFC): a fixed income investment officer and an accountant. Together, these positions will allow the APFC to bring in-house the direct investment of the Fund's international fixed income portfolio. Both of the positions described below are required for the APFC to take on this new mandate.

APFC's fixed income staff directly invests nearly \$5 billion of the Fund in domestic fixed income securities. The internal staff consistently achieves competitive returns, while saving millions of dollars in management fees compared to our external managers.

APFC wishes to expand the internal staff's mandate to include direct investment of international fixed income. Currently, this portfolio is managed externally at an annual cost of about \$1.6 million. Moving these assets to our internal portfolio is expected to save a minimum of \$1.3 million annually over the cost of the two new requested positions.

The new fixed income investment officer will perform the analysis, oversight, and direct investment activities for this new mandate. The APFC's current team is at capacity, so a new position is required in order to perform these tasks in-house.

A new accountant will be required to handle the additional accounting tasks associated with this new mandate. Increasing in-house trading volume will directly increase the amount of review, compliance and accounting tasks that APFC's finance section must perform for the fixed income portfolio. In addition, internal fixed income trading comes with added complexities, such as foreign currencies, forward contract maintenance, and foreign brokers. The current accounting staff does not have the capacity to take on these new tasks.

The Alaska Permanent Fund Corporation currently has programs to invest in private equity and absolute return funds, but they rely exclusively on costly external management firms. One of the features APFC includes in manager contracts in these two asset classes is "co-investment rights." These rights allow the APFC to invest more money in a particular investment, should staff think it prudent to do so, eliminating additional fees to the manager.

APFC needs to develop the staff internally to be able to independently review these investments in order to take advantage of the co-investment rights. Bringing on an investment officer to begin reviewing investments in this area will lower the cost of this program in future years.

Management fees were moved from number section to language section in FY12, in an attempt to provide a range in which fees can be paid. The estimated amounts for the range were 90.3 to 130.0. The legislature opposed the use of fee range. Therefore the question remains as to whether or not this should be a language item.
