Additional Information / Prior Funding History:

None.

Project Description/Justification:

The safety areas for the Nome Airport do not meet FAA safety guidelines. In order to achieve the most cost effective safety area improvements, the Snake River requires relocation, to allow additional safety area expansion on Runway 10/28 to the west, and Runway 3/21 to the South. A terrain line of sight obstruction between the two runways requires removal.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
