Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

State match is required for about \$410 million in federal-aid highway funding. These funds may also be used for advanced acquisition of Right-of-Way (ROW) parcels for projects that are eligible for federal funding. This ROW can be used in lieu of the state matching funds on a federally funded project.

Project Description/Justification:

Match will be used for projects previously authorized by the legislature and projects in the FY13 capital budget. Each year, the department requests state matching funds based on the amount and type of federal highway funds estimated to be available in a fiscal year. This budget is based on preliminary estimates of the federal-aid highway funding that will be available in 2013. The department has estimated federal funding levels to be approximately \$410 million in program funds. The department is also providing match for the Alaska University Transportation Center's (AUTC) federal research funds which require a 50% match.

The requested match amount is calculated as follows:

\$410.0M expected federal funds which require an average of 9% state match

\$410.0M / 91% = \$450.6M (program total including match amount)

\$450.6M program total including match amount

-410.0M federal funds

\$ 40.6M match needed
