Additional Information / Prior Funding History:

\$90,000 - Ch 15 SLA 2009 Pg 25 Ln 21.

Project Description/Justification:

Little Diomed has an unusually harsh environment. The local climate and sea spray takes a heavy toll on equipment. Currently, the community has a small, inadequate dozer they use to clear a temporary ice runway so that planes can land. Diomed has a Heliport which is very costly to use except for emergencies. This project will provide a snow removal equipment facility to substantially extend the life of the equipment and keep the runway open during winter months.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
