

Juneau - Glacier Highway Reconstruction - Fritz Cove to Seaview Avenue

FY2013 Request: \$10,000,000
Reference No: 49151

AP/AL: Allocation **Project Type:** Construction
Category: Transportation **House District:** Juneau Areawide (HD 3-4)
Location: Juneau Areawide **Contact:** Pat Kemp
Impact House District: Juneau Areawide (HD 3-4) **Contact Phone:** (907)465-3900
Estimated Project Dates: 07/01/2012 - 06/30/2019
Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will reconstruct the Glacier Highway between Fritz Cove Road and Seaview Avenue at Auke Bay to reconstruct segments of road sub-base, widen roadway, flatten curve alignments, improve intersections, drainage systems, resurface roadway, lighting, and guardrail, improve bicycle and pedestrian facilities, and add a center turn lane through the Auke Bay business area.

Additional Information / Prior Funding History:

FY2011 - \$1,100,000 for ROW phase.

Project Description/Justification:

An elementary school, the university, a bus stop and a grocery store are just some of the generators of both motorized and non-motorized traffic yet some segments of this roadway have no pedestrian facilities and poor lighting in addition to tight curves and inadequate intersections. An overhead pedestrian crossing to serve university students crossing this highway to the marine sciences laboratory is pending the reconstruction of this segment of highway. This project will significantly improve the safety of motorists and non-motorized users.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
